

Young Children and Worship

Full Training:

This option is available for churches that would like to implement the Young Children and Worship method into their weekly way of worshiping with children.

At this training you will:

- Receive a full training over the method and use of YCW and how it works through the full church year
- Be equipped to take Young Children and Worship back to your church and get it started
- Learn the theology and structure behind Young Children and Worship
- Learn how to tell the bible stories in the storytelling format

To register send an email with your name and church to
Olivia@childrenandworship.org

Acquiring and making material for the Young Children and Worship program can seem like a daunting task. Sherina Poorman is eager to help churches make this task meaningful, purposeful, and easier by providing both a cost effective and community- building way to create the materials through the use of the Build-It-Bus. The Build-It-Bus is a wood working shop on wheels with all of the materials needed for a Young Children and Worship Room. Sherina will be at the training workshop to provide more information and to consult with churches who are interested in having the Build-It-Bus come to their church. For more information and to see this unique ministry go to builditbus.com
